Quinn White

Seattle, WA • qwhite@uw.edu

EDUCATION

University of Washington, Seattle, WA — Sep 2023 – Present

- Ph.D. in Biostatistics (in progress)

Smith College, Northampton, MA — Sep 2019 – May 2023

- B.A. in Statistical & Data Sciences; Highest Honors
  - Honors thesis: Sensitivity analysis of estimated COVID-19 infections in the United States under incomplete testing and diagnostic test inaccuracy. Worked under Professor Nicholas Reich.

RESEARCH EXPERIENCE

Research Assistant, Multi-Ethnic Study of Atherosclerosis, University of Washington — Sep 2023 – Present

- Develop and evaluate a coronary heart disease risk prediction model excluding race/ethnicity, using regularized regression and assessing discrimination and calibration.
- Analyze associations of cardiac biomarkers, cardiac MRI measures, and thoracic aortic calcification with clinical outcomes in MESA.
- Collaborate on cardiovascular epidemiology projects using survival analysis and longitudinal cohort data.
- Mentored by Professor Robyn McClelland.

Research Assistant, Vascular Function Research Laboratory, Smith College — Sep 2021 – Sep 2023

- Analyzed accelerometer-derived physical activity, sedentary behavior, and objectively and subjectively measured hot flashes; developed analysis plans and figures in R. Worked under Professor Sarah Witkowski.

Summer Research Program in Biomedical Data Science, University of Wisconsin–Madison — Jun 2022 – Aug 2022

- Analyzed gene and isoform expression, enrichment, and cell-type composition in brain metastasis samples, under the guidance of Professor Christina Kendziorski.

Research Assistant, Data Ethnography and Advocacy Lab, Smith College — Jan 2022 – May 2022

- Developed the R package regulationsgov for retrieving public comments and documents from Regulations.gov, under the guidance of Professor Lindsay Poirier.

Research Assistant, Katz Lab, Smith College — Sep 2019 – May 2021

- Developed a microbial population genomics pipeline and studied genetic variation and community composition in protists, under the guidance of Professor Laura Katz.

Summer Institute in Biostatistics, University of Colorado Denver — Jun 2021 – Aug 2021

- Studied urine metabolite profiles in pediatric pneumonia using propensity score matching and linear models.

Research Intern, Electrochemical Energy Materials Lab, Boise State University — Jun 2018 – Aug 2018

- Investigated sodium-ion battery electrolyte degradation; contributed to a peer-reviewed publication.

TEACHING

Teaching Assistant, Bioinformatics Laboratory, Smith College — Sep 2020 – Dec 2020

- Supported students with bioinformatics analysis on remote servers and R visualization.

PUBLICATIONS

PEER-REVIEWED JOURNAL ARTICLES

2026 articles below: bibliographic details and author lists should be checked against final publisher records before external distribution.

White, Q., et al. (2026). Reevaluating the use of race/ethnicity in the MESA risk score. *Journal of the American Heart Association*.

Cai, X., **White, Q.**, et al. (2026). Association of subclinical cardiac remodeling with incident cancer in the MESA cohort. *Journal of the American Heart Association*.

Arai, D., et al. (2026). Association between depressive symptoms and thoracic aortic calcification, and their independent and joint prognostic value for incident atherosclerotic cardiovascular disease in the MESA cohort. *International Journal of Cardiovascular Imaging*.

Cai, X., **White, Q.**, Johnson, W. C., Hansen, S. L., Dardari, Z. A., Blaha, M., Michos, E. D., Lima, J. A. C., deFilippi, C. R., Budoff, M. J., Watson, K. E., McClelland, R. L., & Yang, E. H. (2025). Baseline cardiac biomarker levels as predictors of cancer risk in the MESA cohort. *JACC: Advances, 4*(7), 101884. doi:10.1016/j.jacadv.2025.101884.

Cai, X., **White, Q.**, Wang, D. R., deFilippi, C. R., Bertoni, A. G., Wu, C. O., Liu, K., Lima, J. A. C., Budoff, M. J., Fonarow, G. C., Watson, K. E., McClelland, R. L., & Yang, E. H. (2024). Cardiovascular risks and outcomes among Chinese American immigrants: Insights from the Multi-Ethnic Study of Atherosclerosis. *Journal of the American Heart Association, 13*(18). doi:10.1161/JAHA.124.037114.

Witkowski, S.*, **White, Q.***, Shreyer, S., Garcia, R. L., Brown, D. E., & Sievert, L. L. (2024). Acute increases in physical activity and temperature are associated with hot flash experience in midlife women. *Menopause, 31*(7). doi:10.1097/GME.0000000000002373.

Witkowski, S.*, **White, Q.***, Shreyer, S., Brown, D. E., & Sievert, L. L. (2024). The influence of habitual physical activity and sedentary behavior on objective and subjective hot flashes at midlife. *Menopause, 31*(5). doi:10.1097/GME.0000000000002341.

Shireman, J. M., **White, Q.**, Ni, Z., Mohanty, C., Cai, Y., Zhao, L., Agrawal, N., et al. (2024). Genomic analysis of human brain metastases treated with stereotactic radiosurgery reveals unique signature based on treatment failure. *iScience, 27*(4). doi:10.1016/j.isci.2024.109601.

Witkowski, S., Evard, R., Rickson, J. J., **White, Q.**, & Sievert, L. L. (2023). Physical activity and exercise for hot flashes: Trigger or treatment? *Menopause, 30*(2). doi:10.1097/GME.0000000000002107.

Barnes, P., Smith, K., Parrish, R., Jones, C., Skinner, P., Storch, E., **White, Q.**, et al. (2020). A non-aqueous sodium hexafluorophosphate-based electrolyte degradation study: Formation and mitigation of hydrofluoric acid. *Journal of Power Sources, 447*, 227363. doi:10.1016/j.jpowsour.2019.227363.

* Equal contribution.

CONFERENCE PRESENTATIONS

White, Q., Hansen, S., Saldivar Murphy, B., Johnson, C., DeFilippis, A., Post, W., & McClelland, R. (2024, November). Re-evaluating the use of race/ethnicity in the MESA risk score. Poster, American Heart Association Scientific Sessions.

White, Q., Greco, M., Sleith, R., Weiner, A., & Katz, L. A. (2021, January). Population structure in uncultivable protists: A novel approach. Poster, Pioneer Valley Microbiology Symposium.

White, Q. (2021, October). Will telehealth revolutionize access to mental health care? Poster, Science, Technology and Human Rights Conference.

AWARDS & SCHOLARSHIPS

- **American Heart Association Debiasing Clinical Care Algorithms Grant** 2024–2025
  - Project: Re-evaluating the Role of Race/Ethnicity in the MESA Coronary Heart Disease Risk Score.
- **Statistical and Data Sciences Research Prize**, Smith College 2023
- **Best in Show**, Five College ASA DataFest 2023
- **AAAS Science and Human Rights Coalition Essay Competition**, undergraduate winner 2021
- **Undergraduate Statistics Class Project Competition**, third place 2021
- **Zollman Scholarship**, Smith College 2019–2023
- **Rosenfeld Award in Organic Chemistry** 2021
- **National Merit Scholar** 2019

TECHNICAL SKILLS

R, Python, LaTeX, R Markdown, Git/GitHub, Linux/UNIX, HTML; survival analysis, statistical modeling, and reproducible research.
